## INTERNATIONAL FOUNDATION YEAR

Programme offered at: Queen's Campus, Stockton.

Mode of study: this programme is available full-time and part-time.

## LEVEL 0

- The International Foundation Year consists of modules to the value of 120 credits at Level 0. Following satisfactory 1. completion of the International Foundation Year a student is eligible for the award of an International Foundation Year Certificate.
- 2. The International Foundation Year may be taken by one year of full-time study or up to two years of part-time study. International Foundation Year modules are half-modules to the value of 10 credits each, or whole modules of 20 credits each.
- 3. To pass the International Foundation Year a student must study, be assessed in and pass the assessment of modules at Level 0 to the value of 120 credits in accordance with the lists below. Each 10-credit or 20-credit module must be passed with an overall mark of 40% at the first or second attempt.
- 4. A student who fails any of the Level 0 assessments, to a maximum of 120 credits, at the first attempt is allowed one further attempt to pass by resitting the failed assessment element(s) of the failed assessment component(s) of each failed module.
- The Pass Lists issued following the examinations at the end of the academic year shall indicate students who are 5. required to be re-examined. For each student the Board of Examiners concerned shall specify which modules have been failed, which module assessment element(s) must be re-examined, and the form of the resit assessment.
- A student must make his/her first attempt at the assessment of a module during, or at the end of, the academic year in 6. which the module was studied. The resit (without repeating the module itself) will be in the August/September following the first attempt (except for the Information Technology module which may be attempted earlier in June/July).
- 7. The Pass Lists for the Level 0 assessments in May/June and in August/September shall list the names of students who have satisfactorily completed their International Foundation Year.
