

## FOUNDATION PROGRAMME

Programme offered at: Queen's Campus, Stockton.

Mode of study: this programme is available full-time and part-time.

### LEVEL 0

1. The Foundation Programme consists of modules to the value of 120 credits at Level 0, which qualify a student to progress to Level 1 of the degree programme for which they are registered. Any student who chooses not so to progress is eligible for the award of a Foundation Year Certificate.
2. The Foundation Programme may be taken by one year of full-time study or up to two years of part-time study at Level 0. Level 0 modules are half-modules to the value of 10 credits each, or whole modules of 20 credits each.
3. The lists below show the degree programmes to which the Foundation Programme leads and the Level 0 modules which form the pre-requisites for study of each degree programme at Level 1. If a student wishes to progress to a different degree programme from those listed below a concession may be sought from the Head of the relevant Faculty in which the proposed programme is offered. Such a transfer is subject to the agreement of the Director of the Foundation Centre and the Head of the relevant Faculty.
4. To pass the Foundation Programme a student must study, be assessed in and pass the assessment of modules at Level 0 to the value of 120 credits in accordance with the lists below. Each 10-credit or 20-credit module must be passed with an overall mark of 50% at the first or second attempt.
5. A student who fails any of the Level 0 assessments, to a maximum of 120 credits, at the first attempt is allowed one further attempt to pass by resitting the failed assessment element(s) of the failed assessment component(s) of each failed module.
6. The Pass Lists issued following the examinations at the end of the academic year shall indicate students who are required to be re-examined. For each student the Board of Examiners concerned shall specify which modules have been failed, which module assessment element(s) must be re-examined, and the form of the resit assessment.
7. A student must make his/her first attempt at the assessment of a module during, or at the end of, the academic year in which the module was studied. The resit (without repeating the module itself) will be in the August/September following the first attempt (except for the Information Technology module which may be attempted earlier in June/July).
8. Marks awarded for modules completed for Level 0 assessments will not count towards the final classification of the degree to be awarded.
9. The Pass Lists for the Level 0 assessments in May/June and in August/September shall list the names of students who have satisfactorily completed their Foundation Programme, and are eligible to progress to Level 1 of a named degree programme in accordance with the regulations.
10. It is expected that students who progress to a degree programme at Durham City will cease to be a member of either John Snow or George Stephenson College and become a member of a College, Licensed Hall of Residence or Society based in Durham City.
11. The Foundation Programme has been granted an exemption from the University Regulations for Undergraduate Matriculation to allow students to apply for APL up to and including 1<sup>st</sup> December of their first year of study.

#### BIOLOGY (C102), BIOMEDICAL SCIENCES (B902), BIOMEDICAL SCIENCES (INCLUDING PLACEMENT YEAR) (B901)
