Assessment, progression and award

- 9. Students who do not have A-Level Chemistry are required to take <u>BIOL1141</u>. Students with A-Level Chemistry at Grade C or above will not normally be allowed to take this module.
- 10. Modules marked with a # must be passed at 40% or above in order to progress to the Ordinary Degree at the next level.
- 11. During the third year candidates must undertake not less than 40 weeks in industry or in a research institution engaged in placement work approved by the Board of Studies in Biological and Biomedical Sciences. During the placement student progress will be monitored through two interviews with the University supervisor, and assessed by a written dissertation and oral presentation on return to Durham. These assessments do not contribute to the marks used to determine the award of the degree but successful completion is required to qualify for Honours in Cell Biology with Industrial Placement.
