5. Candidates shall study and be assessed in the following modules:

		<b>Credit value</b>
Targeted Therapeutics: Optimisation, Critique and Responsibility	<a href="#">PHAR4003</a>	60
Research Project	<a href="#">PHAR4013</a>	60

### Assessment, progression and award

6. All Modules must be passed at 40% in order to progress to the next level of the degree programme.
7. All Modules must be passed at 40% or above for the award of the MPharm degree. A mark of 30 – 39% cannot be compensated.
8. The following exemptions to the Core Regulations have been granted:
  - a) All elements of assessment must be passed at 40% or above, or at the specified pass mark for Pharmaceutical Numeracy assessments. There cannot be compensation between items of assessment. Students will be given the opportunity to resit any failed assessment element, on one occasion only, at any level. Students will only be permitted to resit failed modules in line with the core regulations. Note: this exemption applies to failed assessment elements only; students may resit failed modules at Level 1 only, in line with the core regulations.
  - b) All Objective Structured Clinical Examinations (OSCE) and Dispensing Examinations must be passed, at the specified pass mark, in order to progress to the next level of the programme. These assessments will be graded pass/fail only.

- c) All placements organised as part of the programme must be attended in order to progress to the next level of the programme. Placements will not be graded or form part of the assessment for the programme.
  - d) Where a Module is passed at 40% or above, and an element of assessment failed, the resit mark for the individual assessment component will be capped at the pass mark for that component. The mark for the overall module will not be capped unless that module is failed.
9. In accordance with the core regulations, students may exit the programme with a lower award subject to the following conditions:
- a) On achieving 120 Level 1 credits – Certificate in Pharmaceutical Studies.
  - b) On achieving 120 Level 1 and 120 Level 2 credits – Diploma in Pharmaceutical Studies.
  - c) On achieving 120 Level 1, 120 Level 2 and 120 Level 3 credits – BSc (Hons) in Pharmaceutical Studies.

**Professional accreditation**

10. This programme has been provisionally accredited by the General Pharmaceutical Council.

**Fitness to practice**

11. All candidates must satisfy the programme's defined Fitness to Practice conditions at:
- a. the point of admission;
  - b. at the commencement of each level of the programme;
  - c. at the conclusion of the programme.
