

These programme regulations should be read in conjunction with the University's [core regulations for undergraduate programmes](#), and the [marking and classification conventions for undergraduate programmes](#).

BSc Environmental Geosciences (F630), BSc Environmental Geosciences with Year Abroad (F631)

1. This programme is available at Durham City, in a full-time mode of study.

Level 1 (Certificate)

2. Candidates shall study and be assessed in the following modules:

		Credit value
Earth Materials Ψ	GEOL1021	20
Understanding Earth Sciences Ψ	GEOL1101	20
Environment and Resources Ψ	GEOL1111	20
Field Studies ~ Ψ	GEOL1051	20

3. Candidates shall also study and be assessed in modules to the value of 40 credits from List A:

List A:		Credit value
Principles of Earth Sciences Ψ	GEOL1091	20
Mathematical Methods in Geosciences Ψ Φ	GEOL1061	20
Further Mathematics for Geoscientists	GEOL1081	20
Physics for Geoscientists	GEOL1121	20
Modules up to the value of 20 credits offered by any other Boards of Studies (including appropriate credit-bearing language modules offered by the University's Centre for Foreign Language Study).		20

Level 2 (Diploma)

4. Candidates shall study and be assessed in the following modules:

		Credit value
Fieldwork (Environmental) ~ Ψ	GEOL2201	20
Water and Climate Ψ #	GEOL2171	20
Geoinformatics Ψ	GEOL2281	20
Sedimentary Environments Ψ	GEOL2031	20

5. Candidates shall also study and be assessed in modules to the value of 40 credits from List B:

List B:		Credit value
Geophysical Methods for Geoscientists Ψ	GEOL2081	20
Structural Geology and Tectonics	GEOL2011	20
Palaeoecology Ψ	GEOL2277	10
The Geological Evolution of the British Isles Ψ	GEOL2267	10
Igneous and Metamorphic Geochemistry and Petrology	GEOL2231	20
Modelling Earth Processes	GEOL2251	20
Modules up to the value of 20 credits offered by any other Boards of Studies (including appropriate credit-bearing language modules offered by the University's Centre for Foreign Language Study).		20

Level 3 (Degree)

6. Candidates shall study and be assessed in the following modules:

		Credit value
Dissertation Ψ	GEOL3022	40
Environmental Geochemistry Ψ	GEOL3041	20
Environmental Management	GEOL3281	20

7. Candidates shall also study and be assessed in modules to the value of 40 credits from List D:

List C:		Credit value
Sedimentary and Petroleum Systems	GEOL3031	20
Magmatism	GEOL3051	20
Palaeobiology	GEOL3071	20
Tectonics and Deformation Processes	GEOL3091	20
Earth Structure and Dynamics	GEOL3151	20
Challenges in Geodynamics II	GEOL3181	20
Petroleum Geophysics	GEOL3221	20
Earth System and Climate	GEOL3231	20
Earth Sciences into Schools	GEOL3251	20
Hydrogeology and Geomechanics	GEOL3291	20

Assessment, progression and award

8. At Level 1 students are required to attend a residential field course that is usually held in the Easter vacation.
9. At Levels 2 and 3 students are required to attend a field course if specified as part of a module.
10. Modules marked with a ~ must be passed at 40% or above in order to progress to the Ordinary degree at the next Level. A mark of 30-39% cannot be compensated.
11. Students are required to take modules marked with a Φ if they do not have AS-Level Mathematics or equivalent at Grade B or above.
12. Modules marked with a Ψ must be taken by students who wish to study for a degree accredited by the Geological Society.
13. Students who have AS-Level Mathematics at Grade B or above are not entitled to take GEOL1061.

Year Abroad

14. Students admitted to the BSc Environmental Geosciences (F630) are able to apply to transfer to the BSc Environmental Geosciences with Year Abroad (F631). Students undertaking the BSc Environmental Geosciences with Year Abroad (F631) will undertake an approved exchange in an overseas university taking a course of study chosen in consultation with the programme director and the host institution. Courses relating to Earth Sciences should normally comprise a minimum of 60% of those taken.
15. Candidates wishing to transfer to the BSc Environmental Geosciences with Year Abroad (F631) must:
 - (a) have successfully completed Level 1 of the BSc Environmental Geosciences (F630) and progressed to Level 2 of the honours or Ordinary programme; and
 - (b) during the first term of Level 2 study, apply to the Board of Studies in the Department of Earth Sciences to be admitted to the BSc Environmental Geosciences with Year Abroad (F631) and have their application approved by the Chair of the Board of Studies in Earth Sciences; and
 - (c) secure an exchange opportunity with an approved international partner institution of the University; and
 - (d) successfully complete Level 2 of the BSc Environmental Geosciences (F630) so as to be eligible to progress to Level 3 of the BSc Environmental Geosciences (F630) programme.
16. Students who the Board of Examiners for Earth Sciences deem to have made satisfactory progress on the year abroad will continue to Level 3 of the BSc Environmental Geosciences with Year Abroad (F631). Students who have not made satisfactory progress on the year abroad will not be permitted to continue on the BSc Environmental Geosciences with Year Abroad (F631), but must instead proceed to Level 3 of the BSc Environmental Geosciences (F630) programme.

Professional accreditation

17. This programme is accredited by the Geological Society for a period of six years with effect from March 2010, subject to students choosing modules to constitute an approved pathway as indicated above.
