

# Durham University Faculty Handbook Online www.durham.ac.uk/faculty.handbook/

These programme regulations should be read in conjunction with the University's <u>core regulations for undergraduate programmes</u>, and the <u>marking and classification conventions for undergraduate programmes</u>.

# BSc Environmental Geosciences (F630), BSc Environmental Geosciences with Year Abroad (F631)

1. This programme is available at Durham City, in a full-time mode of study.

## Level 1 (Certificate)

2. Candidates shall study and be assessed in the following modules:

		Credit value
Earth Materials	<u>GEOL1021</u>	20
Field Studies	GEOL1051	20
Understanding Earth Sciences	<u>GEOL1101</u>	20
Environment and Resources	GEOL1111	20

3. Candidates shall also study and be assessed in modules to the value of 40 credits from List A:

Mothermatical Matheda in Consciouses &	20
Mathematical Methods in Geosciences Φ <u>GEOL1061</u>	
Further Mathematics for Geoscientists GEOL1081	20
Principles of Earth Sciences Ψ <u>GEOL1091</u>	20
Physics for Geoscientists GEOL1121	20
Modules up to the value of 20 credits offered by any other Boards	20
of Studies (including appropriate credit-bearing language	
modules offered by the University's Centre for Foreign Language	
Study).	

### Level 2 (Diploma)

4. Candidates shall study and be assessed in the following modules:

		Credit value
Sedimentary Environments	GEOL2031	20
Water and Climate	<u>GEOL2171</u>	20
Fieldwork (Environmental)	<u>GEOL2201</u>	20
Geoinformatics	<u>GEOL2281</u>	20

5. Candidates shall also study and be assessed in modules to the value of 40 credits from List B:

List B:		Credit value
Structural Geology and Tectonics	<b>GEOL2011</b>	20
Geophysical Methods for Geoscientists Ψ	<b>GEOL2081</b>	20
Igneous and Metamorphic Geochemistry and Petrology	<b>GEOL2231</b>	20
Modelling Earth Processes	<b>GEOL2251</b>	20
The Geological Evolution of the British Isles Ψ	<b>GEOL2267</b>	10
Palaeoecology Ψ	<b>GEOL2277</b>	10
Modules up to the value of 20 credits offered by any other Boards		20
of Studies (including appropriate credit-bearing language		
modules offered by the University's Centre for Foreign Language		
Study).		

# Level 3 (Degree)

6. Candidates shall study and be assessed in the following modules:

		Credit value
Dissertation	GEOL3022	40
Environmental Geochemistry	<u>GEOL3041</u>	20
Environmental Management	GEOL3281	20

7. Candidates shall also study and be assessed in modules to the value of 40 credits from List C:

List C:		Credit value
Petroleum Geoscience	<b>GEOL3031</b>	20
Magmatism	<b>GEOL3051</b>	20
Palaeobiology	GEOL3071	20
Tectonics and Deformation Processes	GEOL3091	20
Earth Structure and Dynamics	<u>GEOL3151</u>	20
Petroleum Geophysics	GEOL3221	20
Earth System and Climate	<b>GEOL3231</b>	20
Earth Sciences into Schools	GEOL3251	20
Hydrogeology and Geomechanics	GEOL3291	20

#### Assessment, Progression and Award

- 8. At Level 1 students are required to attend a residential field course that is usually held in the Easter vacation.
- 9. At Levels 2 and 3 students are required to attend a field course if specified as part of a module.
- 10. Students are required to take modules marked with a Φ if they do not have AS-Level Mathematics at Grade B or above.
- 11. Modules marked with a  $\Psi$  must be taken by students who wish to study for a degree accredited by the Geological Society.
- 12. Students who have AS-Level Mathematics at Grade B or above are not entitled to take GEOL1061.

#### Year Abroad

- 13. Students admitted to the BSc Environmental Geosciences (F630) are able to apply to transfer to the BSc Environmental Geosciences with Year Abroad (F631). Students undertaking the BSc Environmental Geosciences with Year Abroad (F631) will undertake an approved exchange in an overseas university taking a course of study chosen in consultation with the programme director and the host institution. Courses relating to Earth Sciences should normally comprise a minimum of 60% of those taken.
- 14. Candidates wishing to transfer to the BSc Environmental Geosciences with Year Abroad (F631) must:
  - (a) have successfully completed Level 1 of the BSc Environmental Geosciences (F630) and progressed to Level 2 of the honours or Ordinary programme; and
  - (b) during the first term of Level 2 study, apply to the Board of Studies in the Department of Earth Sciences to be admitted to the BSc Environmental Geosciences with Year Abroad (F631) and have their application approved by the Chair of the Board of Studies in Earth Sciences; and
  - (c) secure an exchange opportunity with an approved international partner institution of the University; and
  - (d) successfully complete Level 2 of the BSc Environmental Geosciences (F630) so as to be eligible to progress to Level 3 of the BSc Environmental Geosciences (F630) programme.
- 15. Students who the Board of Examiners for Earth Sciences deem to have made satisfactory progress on the year abroad will continue to Level 3 of the BSc Environmental Geosciences with Year Abroad (F631). Students who have not made satisfactory progress on the year abroad will not be permitted to continue on the BSc Environmental Geosciences with Year Abroad (F631), but must instead proceed to Level 3 of the BSc Environmental Geosciences (F630) programme.

#### **Professional accreditation**

16. This programme is accredited by the Geological Society for a period of six years with effect from March 2016, subject to students choosing modules to constitute an approved pathway as indicated above.
