

These programme regulations should be read in conjunction with the University's [core regulations for postgraduate programmes](#)

MSc New and Renewable Energy (H1K609)

1. Location: Durham City
2. Duration: 12 months (full-time) commencing in September

Admissions

3. Relevant industrial experience will be taken into account as part of the admissions process.

Programme structure

4. Candidates shall study and be assessed in the following modules:

| | | Credit value |
|----------------------------------|---------------------------|---------------------|
| Research and Development Project | ENGI42090 | 90 |
| Group Design Project | ENGI41030 | 30 |
| Low Carbon Technologies | ENGI44120 | 20 |
| Energy Conversion and Delivery | ENGI44020 | 20 |

5. Candidates shall also study and be assessed in modules to the value of 20 credits from List A.

| List A | | Credit value |
|--------------------------------------|---------------------------|---------------------|
| Electrical Engineering 3 | ENGI30320 | 20 |
| Thermodynamics and Fluid Mechanics 3 | ENGI30420 | 20 |

Assessment, progression and award

6. If a candidate fails a module, he/she will be given the opportunity to re-sit the relevant assessment(s), or a comparable piece of assessment if appropriate, at a time to be determined by the Department.
7. Candidates must submit a report on a Research and Development Project ([ENGI42090](#)). An oral examination will be held during August/September.
