

These programme regulations should be read in conjunction with the University's [core regulations for undergraduate programmes](#), and the [marking and classification conventions for undergraduate programmes](#).

MSci Natural Sciences (FGC0); MSci Natural Sciences with Placement (FGC1)

1. This programme is available at Durham City, in a full-time mode of study.
2. The MSci in Natural Sciences allows candidates to take modules from two or more subjects in a four year programme.
3. The range of modules is limited to those listed in paragraph 2 of the BSc Natural Sciences programme (CFG0).
4. Candidates are allowed to take modules from a single subject in the final year if they have the appropriate prerequisites.
5. This programme is available at Durham City, in a full-time mode of study.
6. All module selections must be approved by the Director of Natural Sciences or by their nominee and be timetable compatible.
7. The degree certificate issued to successful candidates who have not taken an MSci Joint Honours degree shall list in alphabetical order all subjects in which they have taken at least 40 credits during the final three levels of the programme.
8. Candidates entering on or after October 2015 may take no more than 20 credits delivered by the University's Centre for Foreign Language Study in Levels 1 and 2. .

Level 1 (Certificate)

9. Candidates take modules: from at least two subjects; from not more than four subjects; to a maximum of 80 credits per subject. The selection must include at least one subject in which Level 4 modules are available.
10. Candidates may take no more than 20 credits of language modules offered by the University's Centre for Foreign Language Study.

Level 2 (Diploma)

11. Candidates take modules: from at least two subjects; from not more than three subjects; with at least 40 credits each in at least two subjects; to a maximum of 80 credits per subject. The selection must include at least one subject in which Level 4 modules are available.
12. In accordance with the core regulations, candidates are normally permitted to study Level 1 modules up to the value of 30 credits.
13. Candidates may take no more 20 credits of language modules offered by the University's Centre for Foreign Language Study.
14. Candidates who take 60 credits of Level 2 Earth Sciences are required to take additional tutorials as determined by the Department of Earth Sciences.

Level 3 (Degree)

15. Candidates take modules: from at least two subjects excluding Natural Sciences coded modules; from not more than three subjects; to a maximum of 100 credits per subject. The selection must include at least one subject in which Level 4 modules are available.
16. In accordance with the core regulations, candidates are normally permitted to study Level 2 modules up to the value of 30 credits;

Level 4 (Degree)

17. Candidates take modules from at least one and no more than three subjects to a maximum of 120 credits per subject.
18. In accordance with the core regulations, candidates must take 120 credits at Level 4.
19. At least 40 credits must be taken in a Level 4 research project.

Placement – Year 3 or Year 4

20. Candidates admitted to the MSci Natural Sciences (FGC0) are able to apply to transfer to the MSci Natural Sciences with Placement (FGC1). Students undertaking the MSci Natural Sciences with Placement programme (FGC1) will undertake an approved placement chosen in consultation with the Director of Natural Sciences or their nominee and the host partner.
21. Candidates wishing to transfer to the MSci Natural Sciences with Placement (FGC1) as their third year must:
 - a. Have successfully completed Level 1 of the MSci Natural Sciences (FGC0) and progressed to Level 2 of the Honours or BSc Ordinary programme; and
 - b. During the first term of Level 2 study, the student must discuss their intention to apply with the Director of Natural Sciences or their nominee in order to be admitted to the MSci Natural Sciences with Placement (FGC1) and receive approval by the Director of Natural Sciences or their nominee; and
 - c. Secure a year-long placement opportunity (40 weeks or more) approved by the Director of Natural Sciences or their nominee with an approved employer; and
 - d. Successfully complete Level 2 so as to be eligible to progress to Level 3 of the MSci Natural Sciences (FGC0) Honours programme.
22. Students who the Board of Examiners for Natural Sciences deem to have made satisfactory progress on the placement will continue to Level 3 of the MSci Natural Sciences with Placement (FGC1). Students who have not made satisfactory progress on the placement will not be permitted to continue on the MSci Natural Sciences with Placement (FGC1) programme, but must instead proceed to Level 3 of the MSci Natural Sciences (FGC0) programme.
23. Candidates wishing to transfer to the MSci Natural Sciences with Placement (FGC1) as their fourth year must:
 - e. Have successfully completed Level 2 of the MSci Natural Sciences (FGC0) and progressed to Level 3 of the Honours programme; and
 - f. During the first term of Level 3 study, the student must discuss their intention to apply with the Director of Natural Sciences or their nominee in order to be admitted to the MSci Natural Sciences with Placement (FGC1) and receive approval by the Director of Natural Sciences or their nominee; and
 - g. Secure a year-long placement opportunity (40 weeks or more) approved by the Director of Natural Sciences or their nominee with an approved employer; and
 - h. Successfully complete Level 3 of the MSci Natural Sciences (FGC0) programme so as to be eligible to progress to Level 4 of the MSci Natural Sciences (FGC0) Honours programme.
24. Students who the Board of Examiners for Natural Sciences deem to have made satisfactory progress on the placement will continue to Level 4 of the MSci Natural Sciences with Placement (FGC1). Students who have not made satisfactory progress on the placement will not be permitted to continue on the MSci Natural Sciences with Placement (FGC1) programme, but must instead proceed to Level 4 of the MSci Natural Sciences (FGC0) programme.

Joint Honours

25. Within the Natural Sciences programme certain combinations of modules will be known as Joint Honours degrees. Candidates who follow these combinations of modules will be awarded a specific title for their degree.
26. Candidates who follow an approved Joint Honours degree will be awarded an MSci in A and B within the Natural Sciences programme, where A and B are replaced by the approved subject titles. Normally each subject will have a single subject title.
27. In order to qualify for the degree MSci in A and B within the Natural Sciences programme, candidates in Levels 2, 3 and 4 normally study modules from two subjects. Candidates must select not less than 160 and not more than 200 credits from each of the two subjects during the second, third and fourth levels of the programme. In Level 3 candidates may, with the agreement of the Director of Natural Sciences, replace 20 credits which are not compulsory for qualification of the Joint Honours degree with the module Science Enterprise ([NSCI3001](#)).
28. The following MSci Joint Honours degrees are available:

MSci Biology and Chemistry (FGC0)

29. This programme is available at Durham City, in a full-time mode of study.

Level 1 (Certificate)

30. Candidates shall study and be assessed in the following modules:

		Credit value
Genetics	BIOL1171	20
Molecules and Cells	BIOL1281	20
Core Chemistry 1	CHEM1078	30
Practical Chemistry 1A	CHEM1087	10

31. Candidates shall also study and be assessed in 40 credits from List A:

Assessment, progression and award

80. Candidates whose achievement at the end of Level 2 does not qualify them to proceed to Level 3 of their Joint Honours degree MSci A and B in Natural Sciences but who achieve the standard required for progression to Level 3 of a Bachelors programme may progress to Level 3 of an appropriate programme within the BSc Natural Sciences programme in the Honours or Ordinary stream in accordance with the Core Regulations.
81. A candidate who is qualified to progress from Level 2 to Level 3 of their MSci degree in Natural Sciences may be permitted to transfer to Level 3 of an appropriate degree within the BSc Natural Sciences.
82. Candidates whose achievement at the end of Level 3 does not qualify them to proceed to Level 4 of their MSci degree in Natural Sciences may be awarded an appropriate degree within the BSc Natural Sciences programme with Honours in accordance with the Core Regulations for the award of a Bachelors degree
83. Candidates whose achievement at the end of Level 4 does not qualify them to be awarded their MSci degree in Natural Sciences may be awarded an appropriate degree within the BSc Natural Sciences programme with Honours in accordance with the Core Regulations for the award of a Bachelors degree.
84. This programme is not available with an additional year to study abroad at a partner institution; however, this does not exclude the opportunity for an individual student to seek a concession to undertake a replacement year at an overseas institution where an appropriate programme of study can be identified and secured by that student in liaison with the University's International Office and subject to the approval of the Deputy Head of Faculty (Natural Sciences).

Professional accreditation

85. MSci Biology and Chemistry: This programme is accredited by the Royal Society of Chemistry for candidates entering Level 1 up to and including October 2023 as satisfying the academic requirements for the award of Chartered Chemist (CChem) for holders of first or second class honours degrees.
86. MSci Chemistry and Physics: This programme is recognised by the Institute of Physics as a degree with a physics component until February 2024.
87. MSci Chemistry and Physics: This programme is accredited by the Royal Society of Chemistry for candidates entering Level 1 up to and including October 2023 as satisfying the academic requirements for the award of Chartered Chemist (CChem) for holders of first or second class honours degrees subject to a necessary requirement for a candidate to take a final year project in the chemical sciences or at the interface of chemistry and physics.
88. MSci Mathematics and Physics: This programme is recognised by the Institute of Physics as a degree with a physics component until February 2024.
