

These programme regulations should be read in conjunction with the University's [core regulations for postgraduate programmes](#), and the [marking and classification conventions for postgraduate programmes](#).

MSc Renewable and Sustainable Energy (H1KF09) [First intake in 2023/24]

1. Location: Durham City
2. Duration: 12 months (full-time) commencing in October [First intake in 2023/24 academic year]

Admissions

3. Relevant industrial experience will be taken into account as part of the admissions process.

Programme structure

4. Candidates shall study and be assessed in the following modules:

		Credit value
Research and Development Project (~)	ENGI42090	90
Group Design Project (~)	ENGI41030	30
Future Vehicles 4	ENGI44810	10
Renewable Energy Technologies 4	ENGI44H10	10
Smart Energy Networks 4	ENGI44I10	10
Decarbonisation of Heating and Cooling 4	ENGI44R10	10
Electrical Energy Conversion 4	ENGI44T10	10

5. Candidates shall also study and be assessed in modules to the value of 10 credits from List A.

List A		Credit value
Internet of Everything 4 – unavailable 2023/24	ENGI44A10	10
Optimisation 4	ENGI44C10	10
Environmental Engineering 4	ENGI44U10	10

Assessment, progression and award

6. If a candidate is eligible to re-sit components of a failed module, they will be given the opportunity to re-sit the relevant assessment(s), or a comparable piece of assessment if appropriate, at a time to be determined by the Department.
7. Project reports for ENGI42090 are submitted in August, in advance of an oral examination before the end of August.
8. Modules marked (~) in the programme structure section must be passed at 50% or above; a mark of 40-49% cannot be compensated.
9. A maximum of 20 credits may be compensated in the degree in line with the Engineering Council statement on compensation and condonement.
