Joint Honours

15. Within the Natural Sciences programme certain combinations of modules are known as "Joint Honours degrees". Candidates who follow these combinations of modules will be awarded a specific title for their degree.

16. Candidates who follow an approved Joint Honours degree will be awarded a BSc Honours in A and B within the Natural Sciences programme, where A and B are replaced by the approved subject titles with the exception of those entering Durham University on or after October 2023 where A and B are one of:

    a. Computer Science and Mathematics
    b. Economics and Mathematics
    c. Mathematics and Physics
    d. Earth Sciences and Biology
    e. Earth Sciences and Chemistry
    f. Psychology and Biology
    g. Psychology and Economics
    h. Psychology and Mathematics

    In which case they will be awarded a BSc Honours in A and B. In cases (a)-(c) these degrees will have a new distinctive programme code and candidates satisfying the Joint Honours criteria are permitted to transfer to the new relevant programme.

17. Candidates studying for a Joint Honours degree are bound by the paragraphs above (including Paragraph 5) except 10 and 15. That relate to the number of credits of Science being taken in any given Level. In order to qualify for the degree BSc Honours in A and B within the Natural Sciences programme, candidates in Levels 2 and 3 must select modules from the same two subjects. At Level 2, the number of credits in each subject must be 60. At Level 3, the number of credits in either subject cannot exceed 80. In Level 3 candidates may, with the agreement of the Director of Natural Sciences, replace 20 credits which are not compulsory for qualification of the Joint Honours degree with the module Science Enterprise (NSCI 3001).

18. The table below shows the Joint-Honours combinations that are currently available where a ■ indicates that combining these two subjects is possible:
